

**AMITY INTERNATIONAL SCHOOL, NOIDA**  
**SOCIAL STUDIES REVISION WORKSHEET**  
**Chapter 12 -When Disaster Strikes**

Q1. Differentiate between an earthquake and flood.

---

---

---

---

---

---

---

---

Q2. Write the ABC of First Aid.

---

---

---

---

---

Q3. Classify the following as Natural and Manmade Disasters.

Natural Disaster	Man-Made Disaster

Q4. What is a Tsunami? How are Iniamis different from Tsunamis?

---

---

---

---

Q5. Look at the picture and answer the following questions.

1. Identify this natural disaster.

\_\_\_\_\_

2. What should be done before and after this disaster strikes? Write about any 2 things.

\_\_\_\_\_

\_\_\_\_\_

3. Name two places in India where floods have occurred in recent times.

\_\_\_\_\_

\_\_\_\_\_

Q6. Fill in the blanks with the appropriate words:

a) \_\_\_\_\_ is the instant treatment given to a victim.

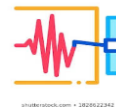

b) Accidents due to human errors are called \_\_\_\_\_ disaster.

c) \_\_\_\_\_ is the key to face any disaster.

d). Mega tsunamis are known as \_\_\_\_\_.

e) Study of earthquakes is known as \_\_\_\_\_.

Ans 1:

Earthquake	Floods
1. Caused by sudden shakes and movements under the surface of the earth.	1. Caused due to the overflowing of rivers and other water bodies.
2. Caused destruction of property and loss of lives.	Causes destruction of property, contamination of water and spread of diseases.
3. Can be measured with the help of a seismograph.	Rain gauges are used to measure the water level.

Ans 2: A- Airway (check if the person is choking), B- Breathing (Is the person breathing?), C- Circulation (Is there proper blood circulation?)

Ans 3: Natural, Man-made, Natural  
Man-made, Natural, Man-made

Ans 4: Tsunamis are big waves that move in the oceans. They are caused by earthquakes or underwater volcanoes. It can also occur due to the gravitational pull of the sun, moon and planets. Landslides or meteorite impact can also cause it. Iniamis are mega Tsunamis. They are worse than a nuclear explosion in terms of death and destruction caused.

Ans 5: The natural disaster is floods.

Two things that should be done after the disaster strikes are:

1. Avoid going out, especially to flooded areas.
2. Keep oneself updated with news and flood warnings.

Two states that have witnessed floods in recent times are Odisha and Kerala.

Ans 6: a. First-aid      b. Man-made      c. Preparedness      d. Iniamis  
e. Seismology
